

[Quick Start](#)[Get Stat Data](#)

Get Stat Data

Get Stat Data Function

```
Ipfs.FileFunctionLibrary.GetStatData(  
    string filepath,  
    out FileStatData outFileStatData)
```

This is a helper function where you provide a file or directory to get useful information about it such as:

- Creation Time.
- Access Time.
- Modification Time.
- File Size.
- Is Directory.
- Is Read Only.
- Is Valid.
